

ARM 2026 Changes

Updates to ARM software in 2026

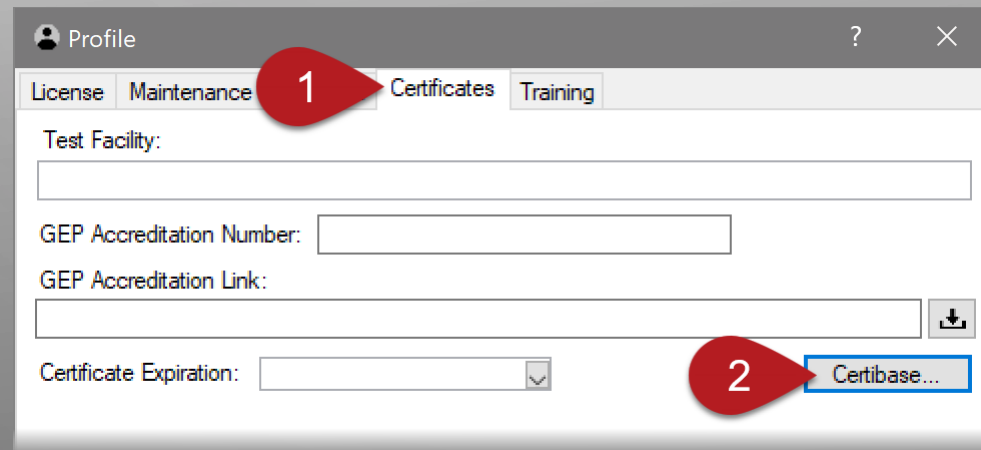

Site Description

GEP Accreditation Certificate

Search the GEP Certificate Database System (Certibase) within ARM to populate GEP Accreditation details (test facility and certificate)

1. Select Help > Profile > Certificates tab
2. Click on **Certibase** button

The screenshot shows a window titled "Profile" with a tabbed interface. The "Certificates" tab is selected, indicated by a red callout with the number "1". Below the tabs are several input fields: "Test Facility:", "GEP Accreditation Number:", "GEP Accreditation Link:", and "Certificate Expiration:". A red callout with the number "2" points to a button labeled "Certibase..." located at the bottom right of the form.

GEP Accreditation Certificate

3. Select Country and/or Organization and click **Search**

4. Choose an active certificate and click OK to save to Profile

5. Select **Update Trial** to copy selected certificate details to current trial

GEP Certificate Search

Search for Certificates

Country: Belgium

Organization:

Search Reset Filters

Be sure to select the correct certificate for your country

Test Facility:

Update Current Trial

Copy Test Facility, GEP Accreditation Number and Link to Site Description
Attach GEP Certificate.

Note: For non - GEP trials in Gemany, ARM will only update Test Facility:

Update Trial

OK Cancel Help

Equipment tab

Rearranged the list of sections to better place Equipment tab chronologically

Why? Equipment should be defined first, and then those records can be linked to the later sections (e.g. Weather station or growth chamber)
