ARM Academy

ARM Data Primer: a webinar series

Best practices for making the most of your trial data. We cover data confirmation, test against assumptions of AOV, and finish with analysis & reporting options.

Thu. Sep 14 at 9 am CDT: Data Confirmation

Data confirmation is needed to ensure data quality, even before data analysis is considered. We will demonstrate the features in ARM for performing this step.

Thu. Sep 21 at 9 am CDT: Prepare Data for Analysis (Data Review)

To prepare for analysis, the assumptions of AOV must be considered. We discuss those assumptions and demonstrate the features in ARM for performing this review.

Thu. Sep 28 at 9 am CDT: Analyze and Report Data

We discuss the features and options of the AOV analysis in ARM, and the common questions that users typically face about the report.
