

FREE ARM Software Webinars

April Webinars

In this series of ARM webinars, we cover different aspects of trial setup and data entry. A mix of new and popular webinar topics!

*Note the change in time zone from last month, due to Daylight Savings Time.

Setting the Trial Plot Layout Tue. Mar 21 at 9 am CDT

Learn how to set the plot layout for ARM trials. We discuss tools for matching an already-chosen layout, as well as ways to use ARM to randomize your trials.

On-boarding a New ARM User Tue. Mar 28 at 9 am CDT

Best practices for setting up a new user with ARM. We discuss licensing, training, and initializing options and lists within ARM.

Data Collection Methods Tue. Apr 4 at 9 am CDT

We compare and contrast the various methods for collecting assessment data: Copying from Excel, Excel Rating Shell, ARM Mobile, and Tablet Data Collector.

Collecting Data with ARM Mobile Tue. Apr 11 at 9 am CDT

Modernize your data collection workflow with ARM Mobile! We introduce our mobile app, and then provide a demonstration of the system.

Attaching Plot Images to ARM Trials Tue. Apr 18 at 9 am CDT

See how easy it is to attach plot images to a trial, renaming the image files in the process. A huge time-saver that is always a popular topic at trainings!

Master the Assessment Editor Tue. Apr 25 at 9 am CDT

We present shortcuts and tools to maximize your use of the Assessment editor in ARM. Topics include: keyboard shortcuts for data entry, changing the order of columns, and other view options.
