# ARM Academy

April Webinars: Trial Establishment

Power up your trial work with ARM webinars!
This series focuses on trial tasks and data collection.

ARM Mobile: Getting Ready for the Season   Thu. Apr 4 at 9 am CDT
We cover the steps for setting up to take notes with ARM Mobile this season. This includes clearing out last year's information, re-establishing the cloud connection, and sending this year's trials to your mobile devices.

Trial Map Randomization   Thu. Apr 11 at 9 am CDT
Learn how to use the Trial Map tool in ARM for creating the randomization of a trial. We show how to set the shape and numbering of the map and to manually adjust the layout via drag-and-drop. We also highlight the Quality features for optimizing the randomization.

Applications and Spray Sheets   Thu. Apr 18 at 9 am CDT
Tips for documenting treatment applications, and common troubleshooting steps for creating a "spray sheet" Spray/Seeding Plan report.

Schedule Tasks & Calendar Appointments in ARM   Thu. Apr 25 at 9 am CDT
Learn how to create calendar appointments/tasks within ARM for trial applications, assessments, and other actions. You can also send these to an Outlook calendar.

Collect Data with TDCx   Thu. May 2 at 9 am CDT
Learn the ins and outs of using the Tablet Data Collector (TDCx) add-in to enter assessment data while in the field, as well as taking pictures, recording GPS coordinates, and reviewing data.
