

# FREE ARM Software Webinars

## March Webinars: Protocol Planning

In this series of ARM webinars, we cover various aspects of protocol planning and early-season tools. We also recap changes in the software over the last year.

---

### **What's new in ARM 2024 Thu. Feb 22 at 9 am CST**

We demonstrate what changes have been made to ARM since the beginning of last season. This covers ARM release versions 2023.0 through 2023.6.

### **Split-Plot and Other Multi-Factor Designs in ARM Thu. Feb 29 at 9 am CST**

We discuss multi-factor designs, such as split-plot, in ARM. Includes setting up a factorial protocol, customizing the trial map for a split-plot trial, and analysis options.

### **Using ARM for Greenhouse Studies Thu. Mar 7 at 9 am CST**

We explore examples of how to use ARM for greenhouse studies. Treatments, applications, trial map and assessments all have their own 'spin' for these kinds of trials.

### **Protocol Basics Thu. Mar 14 at 9 am CST**

We cover the basics of setting up a protocol, including the treatment list, applications, and planned assessments.

### **Protocol Best Practices Thu. Mar 21 at 9 am CST**

We discuss practical tips for improving protocols. Features demonstrated include: the Review Protocol Entries wizard, validation tips & tricks, and top 5 study rules to use.
