

# FREE ARM Software Webinars

## March Webinars: All About Protocols

ARM webinars have returned! We cover various aspects of protocol planning and early-season tools. We also recap changes in the software over the last year.

---

### **What's New in ARM 2025 Thu. Mar 13 at 9 am CST**

We demonstrate what changes have been made to ARM since the beginning of last year. This covers ARM release versions 2024.0 through 2024.4.

### **Master the Treatments Editor Thu. Mar 20 at 9 am CST**

We present shortcuts and tricks to save time filling out the treatments list in ARM studies. Topics include: keyboard shortcuts, validation list searching, sharing product lists, and study rules for treatments.

### **Master the Protocol Description Thu. Mar 27 at 9 am CST**

We present tools and tricks to maximize the use of the Protocol Description editor in ARM. Topics include: Trial Location table, multi-field Favorites lists, and study rules for a trial's Site Description.

### **Master the (Protocol) Assessment Editor Thu. Apr 3 at 9 am CST**

We present shortcuts and tools to maximize your use of the Assessment editor in ARM protocols. Topics include: shortcuts for filling in the assessment header, Standard Evaluations (SEs), and study rules for assessments.
