November Webinars: Trial Summaries

Our next set of webinars focus on trial summarization tasks, starting with a repeat of a popular session on transformations! We also cover graphing and an introduction to Summary across Trials.

(Note the change in time from last month - we "fall back" 1 hour earlier)

Data Calculations in ARM Tue. Nov 8 at 9 am CST

Summarize recorded data with transformations and ARM Action Codes.

Creating a Graph Tue. Nov 15 at 9 am CST

We demonstrate the graphing functionality and options within ARM.

Summary across Trials (ST) Basics Tue. Nov 22 at 9 am CST

Learn the basics of Summary across Trials (ST) add-in, to summarize multiple trials across years or locations.

ST Basics: Part 2 Tue. Nov 29 at 9 am CST

A continuation of the previous ST Basics webinar, covering additional treatment and assessment criteria plus graphing.
