# October Webinars: Data Summarization

This month's webinars focus on summarizing trial data. We offer a pair of 2-part sessions to cover transformations and the Summary across Trials add-in, as well a session on reviewing trial contents in a batch.

Data Transformations in ARM - Part 1   Thu. Oct 3 at 9 am CDT
Summarize recorded data with transformations and ARM Action Codes. In part 1, we discuss subsample calculations, control corrections like Abbott's, and User Formulas.

Data Transformations in ARM - Part 2   Thu. Oct 10 at 9 am CDT
Summarize recorded data with transformations and ARM Action Codes. In the second session, we discuss rating scales, yield conversions, and "area under curve" calculations like AUDPC.

Reviewing Multiple ARM Trials At Once   Thu. Oct 17 at 9 am CDT
Learn effective techniques for reviewing a multiple trials at once. Identify any missing or inconsistent information provided by trialists (both internal and external) in a timely fashion!

Summary across Trials (ST) Basics, Part 1   Thu. Oct 24 at 9 am CDT
Learn the basics of Summary across Trials (ST) add-in, to summarize multiple trials across years or locations. We will cover the 3 main pieces of an ST criteria (Trials, Treatments, Assessments), and introduce the output analysis.

Summary across Trials Basics, Part 2   Thu. Oct 31 at 9 am CDT
Picking up where we left off in part 1, we demonstrate additional examples of treatment and assessment criteria, and introduce graphing for the multi-trial analysis.
