October Webinars: Trial Data Tools

We offer a range of topics related to trial information. We start with a run-through of Site Description sections, then offer best practices for reviewing trial data in order to build towards summarizing and database use.

Master the Site Description Thu. Oct 9 at 9 am CST

We present tools and tricks to maximize the use of the Site Description editor in ARM.

Topics include: Rich-text comment fields, highlight recently-added workflows with Soil and Equipment sections, and an overview of each section's purpose.

Review and Classify ARM Trial Information Thu. Oct 16 at 9 am CST

Best practices for reviewing ARM trials, with the goal of capturing this knowledge to efficiently be used again in the future. Topics include: validation, organizing assessment columns, and classifying data reliability.

Summary across Trials (ST) Basics Thu. Oct 23 at 9 am CST

Learn the basics of Summary across Trials (ST) add-in, to summarize multiple trials across years or locations. We will cover the 3 main pieces of an ST criteria (Trials, Treatments, Assessments), and introduce the output analysis.

Introduction to ARM Trial Database (ATD) Thu. Oct 30 at 9 am CST

Learn how an ATD trial database can unlock possibilities for your organization to utilize and summarize research data.
