October Webinars: Analysis

This month we focus on data analysis, with updated versions of our popular Beginner Statistics series and the basics of Summary across Trials.

Data Confirmation Wed. Oct 7 at 9:00 AM CDT

Data confirmation is needed to ensure data quality, even before data analysis is considered. We demonstrate the features in ARM for performing this important step.

Data Review Wed. Oct 14 at 9:00 AM CDT

Data review is needed to prepare the data for analysis, primarily to test against the assumptions of AOV. We demonstrate the features in ARM for performing this step.

AOV Analysis and Reporting Options Wed. Oct 21 at 9:00 AM CDT

We discuss the features and options of the AOV analysis in ARM, and the common questions about the report. New this year: a basic explanation of a new analysis option, Mixed Models.

Summary across Trials (ST) Basics Wed. Oct 28 at 9:00 AM CDT

Learn the basics of Summary across Trials (ST) add-in, to summarize multiple trials across years or locations. We will cover the 3 main pieces of an ST criteria (Trials, Treatments, Assessments), and introduce the output analysis.
