

## FREE ARM Software Webinars

### ARM Webinars: Protocol Power!

Level up your Protocol game with this series of ARM webinars. We share best practices for protocols, then dive into specific features and tools to help protocol writers improve this important aspect of a research study!

#### **Protocol Best Practices: Inform & Instruct with confidence Thu. Mar 3 at 9 am CST**

We discuss practical tips for improving protocols. Features demonstrated include: the new Review Protocol Entries wizard, Merge, Treatment study rules, Protocol Description tools, and Standard Evaluations.

#### **Applications and Spray Sheets Tue. Mar 8 at 9 am CST**

Tips for documenting treatment applications, and common troubleshooting steps for creating a "spray sheet" Spray/Seeding Plan report.

#### **Using ARM for Greenhouse Studies Thu. Mar 10 at 9 am CST**

ARM can be used for more than just field trials! In this session, we explore examples of how to use ARM for greenhouse studies. Treatments, applications, trial map and assessments all have their own 'spin' for these kinds of trials.

#### **Split-Plot and Other Multi-Factor Designs in ARM Tue. Mar 15 at 9 am CDT**

We discuss multi-factor designs, such as split-plot, in ARM. Includes setting up a factorial protocol, customizing the trial map for a split-plot trial, and analysis options, with a special focus on recent updates to ARM in this area.

#### **Create better trials using Study Rules Tue. Mar 22 at 9 am CDT**

We discuss the practical aspects of getting started with study rules. Now is the time to implement this powerful feature, to simplify the data review process and to improve trial quality!
