

ARM Product Pulse

Your source for the latest ARM updates and best practices

Issue #23

NEW Tutorial Videos Added!

- [Basics of Standard Evaluations](#): a Standard Evaluation, or SE, is a standardized rating to be performed. Discover how to save time and improve data consistency by utilizing SEs from our Master List.
- [Creating Standard Evaluations](#): learn how to modify existing SEs from the Master List or create your own custom SE.
- [Graphing with ARM](#): check out how to generate graphs from assessment columns and easily incorporate them into other documents.

View our complete list of [tutorial videos](#) for a quick overview on many of our tools and features. Most are five minutes or less!

Webinars: for those looking for more in-depth instruction on particular topics, search our [YouTube page](#). We've organized our 100+ recorded webinars by topic.

Expand your ARM knowledge in just a few minutes a day!
Follow GDM Solutions on [LinkedIn](#) or [Facebook](#) for time-saving tips.

NEW Compatible App for Data Collection by Voice

Do you currently use smatrix? ARM now communicates seamlessly with smatrix through our Electronic Data Collector (EDC) add-in. If you already have the EDC connection, you only need to add a data plan. The EDC connection and data plan also allows you to utilize ARM Mobile.

Contact sales@gdmdata.com for a price quote and to add the EDC connection and data plan to your existing ARM subscription.

Click [here](#) for information on smatrix, a separate data collection by voice app (not an ARM product).

Register for **FREE** training through our [ARM Academy](#).
Earn ARM Beginner Certification - great for new and veteran users!

ARM 2024.0 Features and Enhancements

Run "Check for Updates" to take advantage of the latest developments! Find release notes on the [website](#).

Assessment Data Improvements

New Rating Interval field:

- Specify the interval between assessment values. For example, the interval is 1 for whole numbers and 0.25 for values like 0.75, 1.25, etc.
- Rating buttons in ARM Mobile reflect the interval options.

Assessment Data - Line 16	
Column Number	2
Assessed By	
Rating Date	Jul-1-2023
Rating Time	
Standard Evaluation (SE)	
-SE Group No.	6
-SE Name	
-SE Description	
-Part Rated	PLANT C
-Rating Type	DAMAGE
-Rating Unit	0-4
-Rating Min/Max/Interval	0 4 0.5

Select one or more columns to hide.

Quick Tip: Optimize Editor Views

Hide unused columns to maximize screen space:

- Select one or more columns.
- Right-click and select *Hide Current Field*.
- Click *View Options* in Properties Panel to make hidden columns visible again.

Callouts:
- Toggle between view options for the Treatment editor, Site Description, and Assessment Data editor.
- Determine visibility of each field.
- Load a saved view and apply this view to the current study.
- Save the current view as a named view that can be used with other studies.

Buttons: Save as Default, Clear Default, Load View..., Save View..., OK, Cancel, Help

Use *Save View* to create a file with the current view settings. Use it with other studies or share with a colleague.

Load a previously saved view with the *Load View* button.

GDM Representative Spotlight: Garry Pease

We continue to grow our team of experts to serve you better! Meet Garry, our newest representative, to provide training, sales, and technical support. Garry has 25 years of experience working with ARM in the crop protection industry.

Garry serves the United Kingdom and Ireland. Learn more about Garry [HERE](#).
